Championing Place-Based Recovery

Across the UK, local authorities are leading place-based post covid strategic recovery.

Socitm drawing on the emerging picture of place-based recovery strategies has identified following four key “what works” strands of place-based recovery:

**Reset:** ethical principles, respecting social, economic and ecological foundations

**Reform:** public services by embracing innovation and modernisation

**Renew:** communities by collaborating across place and encouraging self-sufficiency

**Resilient:** to disruptive changes, to thrive and to achieve better, sustainable and inclusive outcomes for everyone

This infographic highlights examples of how a range of Combined Authority, County, Unitary and District Councils are focusing on what works and how they are looking to develop and apply such approaches across the diverse range of places and communities they serve.

**East**
