

Sustainability and Climate Change Education in Schools & Colleges – Creating solutions to support Government Strategy

Monday 9th – Tuesday 10th May 2022

Programme

Aim:

Connect Schools and Colleges to Stakeholders to help provide sector led solutions for sustainability and climate change education.

Objectives:

To agree a shared approach towards FED's contribution to supporting the government's sustainability and climate change education strategy in relation to five key aims:

1. Developing a map of the English curriculum from 3-18 that highlights the current opportunities to deliver climate change and sustainability learning across all subjects and phases.
2. Developing a framework of pedagogical approaches to climate change and sustainability education that allows teachers and leaders to better deliver key learning outcomes for children and young people.
3. Contributing to a climate change and sustainability assessment and qualifications framework.
4. Providing an approach to climate change and sustainability education that can be wrapped into the ITT and ECF frameworks.
5. Developing a suite of resources that can be used to improve understanding of the potential for career opportunities in the 'green' economy of the future.
