1. Why is it important?
2. Is anything currently playing this role within the system? If so, what's working well, and what's not?
3. What will the benefits be?
4. What could go wrong?

14.30 - 15.30 - What will the proposal look like?

1. What should the purpose and remit be?
2. What should it *not* do?

Please prepare for the next session:

- 3 things you are excited about
- 1-3 things you are grappling with

Moving from idea to implementation

1. Who needs to be convinced of the proposal's value?
2. How can we show that the proposal is workable?
 - a. How will it fit together with the other proposals?
 - b. How will it knit into the current system?
 - c. What resources will be needed to set it up and run it effectively?
3. What are the risks of setting it up?
4. Anything else?
